

Curriculum Vitae

Dimitris Mitsos studied Conservation of Antiquities & Works of Art in the University of West Attica (Athens, Greece). Since 2017, he holds an MSc degree in Cultural Heritage Materials & Technologies (CultTech) from the Department of History, Archaeology and Cultural Resources Management of the University of Peloponnese (Kalamata, Greece). He is currently a PhD researcher on atmospheric pollution and its impact on built heritage in the Department of Digital Systems of the University of the Peloponnese.

He has work experience in various conservation projects in Greece, specializing in the restoration/conservation of stone monuments and artifacts. His main research focus includes the characterization of archaeological building materials, stone degradation products, and particulate pollutants affecting built heritage.
